THE VISION

New visual identity for Preoptima: Bridging Science and Design

Evolving 25 years of world-class academic research into a fast-moving, innovative climate tech brand.

The Mission

Aligning your visual identity with your goal of making whole-life carbon reduction simple, actionable, and impactful.

THE DIAGNOSIS

From Generic to Global.

The Current Challenge

You’ve identified that the current logo feels generic and the colors are restrictive.

The Opportunity

To replace the "stock" feel with a bespoke identity that reflects your status as an innovative startup at the intersection of climate tech and digital planning.

> ### Strategic Resilience
> We recognize the internal discussions regarding the company name. This system is built to be flexible, ensuring visual stability regardless of future naming decisions.

THE ROADMAP

Concrete Phases

01. Discovery

Analysis of your mission to empower both sectors in achieving Net Zero goals.

02. Design

Architectural Logo: Engineering a unique symbol.
Dual-Platform Logic: CONCEPT vs PACER visual language.

03. Refinement

Precision-tuning the selected direction through collaborative feedback rounds.

04. Launch

Delivery of a full digital toolkit for website, LinkedIn, and international events.

THE BRAND TOOLKIT

Final Deliverables

A. The Brand Styleguide

A comprehensive guide establishing the rules of your new visual identity, ensuring consistency across all future touch points.

B. Color Architecture

Strategic color palette featuring Core Brand Colors for authority, Product Colors (CONCEPT vs. PACER), and Data Tones for technical carbon assessments.

C. Typographic System

Double-layer typographic logic: High-impact headlines for brand presence and precision-engineered mono types for carbon metrics and UI data.

D. Digital Assets & Master Suite

Full collection of master logo files (.AI, .SVG, .PNG, .PDF) and a specialized social media kit for LinkedIn brand dominance.
